**THE ADVENTURE OF
A GREAT AWAKENING**

The Program for this event is an occurrence of miraculous correspondence. We are revolutionized to a spontaneously creative self-identity through the power of singular Universal Reality.

The presentation this weekend will be under the following very broad headings:

Introduction:

The integration of the religion of our nature and the philosophy of our being through the art and science of our mind into the brilliantly fearless new reality that is our evolutionary destiny.

The Transforming Act of Forgiveness:

Through the divinely devastating assertion of A Course In Miracles of the falsity of its own communicative devices, we will demonstrate the necessity for inclusion of previously disconnected ideas of the mind brought to harmony through unqualified forgiveness, that is non-judgment and unconditional love.

Great Rhythm, Rhyme, and Reason: *Sharing The Transforming Passion Of Poetic Mind*

A delightful discovery of the very fundamental admission of the inevitability of single universal creating mind, along with all of the catechism imperative to our own very personal individual transformational process, so beautifully orchestrated and demonstrated in the incomparable drama and poetry of Jesus Christ, The Master Teacher, the Psalms of David, Sri Aurobindo, Ralph Waldo Emerson, William Shakespeare, Rumi, Ray Comeau, Devavan Plank, The Third Patriarch of Zen, and many others.

Experience the divinely innate, wholly intrinsic particulars of this resurrected mind, never more inspirationally reasoned or poetically encapsulated than in these works.
